# HOW TO
create a group
## IN THE VEWSMART APP

1. Open the VEWsmart app

**2.** Select a product you would like in a group

**3.** Tap on the **edit** button in the top right

4. Select '**Create Group**'

5. Select all other devices you would like in this group

6. Select '**Save**' in the top right

7. Type in the **name** you would like the **group** to be called and **click save**

8. You can then control all these lights via the group which will be on the home page

"Alexa, turn on kitchen lights"
