Code: K05-6080.

Product Name: COMET IP65 Fire-rated LED Colour Match Downlight

Description

Comet, the versatile LED downlight from VEW Lighting & Electrical, designed to bring a coordinated finish to your interior. With ten bezel finishes to choose from, Comet complements a wide range of styles, while adjustable colour temperature and dimmable lighting help you create the right atmosphere—from bright, practical spaces to a softer evening setting.
Designed with installers and everyday use in mind, Comet combines straightforward fitting with flexible lighting options. Its fast-fit connector and VEWstatus wiring indicators simplify installation, while selectable power settings let you tailor the light to your space. With an IP65 rating, fire-rated design and five-year warranty, Comet brings practical features and considered style together.
