

Code: M9RC7WL-4K

Product Name: ELECTRA RECHARGEABLE WORKLIGHT

Description

The Electra work light is the ultimate versatile lighting solution! This work light can function as one unit or split into two separate lights, providing flexibility for different tasks. When linked together, it spans 1 metre, offering ample illumination for various projects. With the added convenience of USB charging and a car charger, you can keep it powered up and ready to use anywhere. Illuminate your workspace with ease and efficiency using the Electra work light.

Product Details

Product Type: Work Light

Product Description: Rated voltage: DC 3.7V Power Input: DC12V Power Output: DC5V 1A Sensor coverage angle: 360° Working hours: Up to 2Hrs IP Rating: IP20

Colour: 4000k Natural White

Temperatures:

Lumens: 2 x 350lm
