Code: S02-4225

Product Name: HAMPTON 100MM ZONE 1 HUMIDITY TIMER EXTRACTOR FAN

Description

Improve bathroom airflow with the 100mm Zone 1 Humidity Timer Extractor Fan – featuring a high-performance mixed-flow impeller for quiet, efficient operation. Consuming just 7.5W with an airflow of 97m³/hr, this fan is suitable for installation within bathroom zones 1 and 2. Complete with an adjustable run-on timer (2–30 minutes) and humidity sensor (60–90%), it comes with a built-in backdraft damper and anti-vibration mounts for quieter performance. Available in white or chrome and backed by a 5-year guarantee.

Product Details

Product Type:	Ventilation
Product Description:	• Specially designed mixed-flow impeller ensures high airflow and low noise level. • 25dB (A) at 3mtr • Casing and impeller made of quality durable UV resistant plastic. • Built in backdraft damper. • Suitable for installing within bathroom zones 1 and 2. • Complies with part L and part F of the building regulations. • Low energy consumption: down to 7.5w (SFP 0.278w/l/s). • Built-in anti-vibration mounting to further reduce noise. • Available in white & chrome • Axial fan • IP Rating: IP45 • Maximum Operating Temperature 40°C • Run on timer, adjustable from 2 to 30 minutes • Humidity Sensor adjustable from 60-90% • Cut out Ø103mm • Airflow 97m3/hr - 27 litres per second
