Code: K32-4824RGB

Product Name: VEW FLEXI LED SHEET RGB

Description

Flexible 24V LED sheets designed to provide versatile, high-quality illumination across a wide range of applications. Available in RGB, the sheets can be cut to size at designated cutting points and feature 3M 300LSE adhesive backing for easy installation.

Product Details

Product Type:	Flexi LED sheet
Product Description:	• Manufactured using premium-quality LEDs with pure gold bonding wires and large LED chips for excellent performance and reliability. • Produced using high-temperature, SMT technology with smooth, high-quality solder joints for enhanced durability. • Double-layer PCB construction provides stable electrical performance and improved reliability.
Wattage:	50w
IP Rating:	IP20 Rated
Colour Temperatures:	• RGB
CRI:	>90
LEDs:	288 LED's, SMD5050
Mountable:	3M 300LSE tape
Cutting Unit:	40mm x 60mm
Size:	480mm x 240mm
Guarantee	7 years
You will also require:	• An accessory pack containing connecting cables, spaces and fixings • 24v Driver

Specification

Voltage:	24v
