

Code: R90-0133

Product Name: MICRO 4 Way Connector Block C/W Micro Plug Black

This Micro 4 way connector block can be used to increase the number of ports on your LED driver or sensor.

Key features:

- Increase the number of ports on your LED driver or LED sensor using our micro way connector block
- Please note the connector block will use one of the existing ports on an LED driver
- Please ensure you do not exceed the maximum capacity of your LED driver or LED sensor
