- 3M VHB iron plates
- Magnetic fixing plates and adhesive discs
- Screws

Important Safety Information

When using this product, please follow the safety and installation instructions in this manual and keep it for future use.

The light source of this product is a non-replaceable light-emitting diode (LED).

The product is not waterproof. Please do not install this light in a location where it will come in contact with liquid.

Please charge the product when the light is dim and begins to flash.

This product will remain under warranty for 36 months from the factory production date which is engraved on the reverse of the product.

Disassembling the light in any way will waive the warranty of this product.

Please use a dry cloth or chemicals to clean this product.

Installation

There are two methods of installation:

1. VHB adhesive plates

Please use this tab to remove the backing

- 1 Simply peel off the backing on the adhesive plates.

- 2 Apply them in the required location and attach the light.

TLW Brunel House, Brunel Close, Harworth, Doncaster, South Yorkshire, DN11 8QA

Product Name: BAR Slim Rechargeable Light

Product Code: C01-2045

Installation

2. Magnetic fixing plates and screws

1 Screw the fixing plates provided into the required location.

2 Move the light up to the fixing and it will be held in place

Instructions

1. When you set the switch on the end of the light to "ON", the light will remain permanently on.
2. When you set the switch on the end of the light to "OFF", the light will remain permanently off.
3. When you set the switch on the end of the light to 'auto' the sensor mode will be activated. When motion is detected the light will automatically switch on.
4. After no motion has been detected for 15 seconds the light will switch off.
5. The sensor has a detection range of 1-3 Meters.
6. The sensor's detection angle is 90 degrees.
7. When the luminaire is installed in the cabinet, the sensing distance is 1-2m.
8. When you charge the light the indicator will turn red. When fully charged the indicator light will turn green.
